

ANKIT MAAN

Full Stack Developer — PHP/Laravel · Node.js · React/Next.js · Flutter · AI Automation

rmgreat1@gmail.com | +91 93504 19515 | [linkedin.com/in/ankit-maan-a7a281178](https://www.linkedin.com/in/ankit-maan-a7a281178)

PROFESSIONAL SUMMARY

Full Stack Developer with **4+ years** of experience designing, building, and deploying production SaaS platforms, REST APIs, and cross-platform mobile apps end-to-end. Strong in **PHP/Laravel, Node.js (NestJS/Express), TypeScript, React/Next.js, and Flutter**, working across MySQL, PostgreSQL, MongoDB, and Redis. Shipped live multi-tenant products used by real businesses — including a WhatsApp/Instagram automation SaaS, a hotel-booking B2B platform, and CRMs — handling everything from database design and payment-gateway integration to Linux/cloud deployment and AI-powered automation.

TECHNICAL SKILLS

Languages	PHP, JavaScript, TypeScript, Dart, Java, Kotlin, SQL
Backend	Laravel, Node.js, NestJS, Express.js, REST APIs, Prisma ORM, Eloquent, Redis Queues / Background Jobs, WebSockets
Frontend	React, Next.js, Vue.js, Livewire, Tailwind CSS, Bootstrap, HTML5 / CSS3
Mobile	Flutter, React Native (Expo), Native Android (Java & Kotlin), Google Play publishing
Databases	MySQL, PostgreSQL, MongoDB, Redis
AI & Automation	LLM integration (OpenAI-compatible APIs, Ollama local models), ElevenLabs voice AI, n8n workflow automation, AI chatbots / agents
DevOps & Cloud	Linux VPS administration, Nginx, Docker, PM2, AWS, DigitalOcean, Git / GitHub, CI/CD, cPanel
Payments	Razorpay, Stripe, PayPal, PayU, Cashfree, Paytm, PhonePe
Messaging APIs	WhatsApp Business Cloud API, Meta Graph API (Instagram / Messenger), Telegram Bot API, Twilio, MSG91
CMS	WordPress (custom themes & plugins), WooCommerce

WORK EXPERIENCE

Software Developer — CareMyTrip

Dec 2025 – Jul 2026

Core full-stack developer building and maintaining multiple production SaaS products for businesses and travel agents.

- Built **Pulp Hotels**, a B2B/B2C hotel-booking platform with inventory management, agent onboarding, markup/commission handling, a booking engine, supplier integrations, and a wallet/payment system.
- Developed **HeyWapi** (heywapi.com), a live multi-tenant SaaS for WhatsApp, Instagram, and email automation — chatbot flow builder, broadcast campaigns, contact management, webhooks, n8n integration, and subscription billing with the WhatsApp Business Cloud API and Meta Graph API.
- Delivered **LeadsCRM**, a centralized lead-management system with lead capture, assignment, pipeline stages, follow-up reminders, role-based access control, and reporting dashboards.
- Shipped **Teerthayan** (teerthayan.com), a spiritual & pilgrimage portal — design, development, and deployment.
- Integrated **6 payment gateways** (Razorpay, PayU, Cashfree, Stripe, Paytm, PhonePe) and messaging APIs (Twilio, MSG91, WhatsApp Business API) across products.
- Owned production deployment on Linux VPS (Nginx, Docker, PM2) and cloud (AWS / DigitalOcean) with Redis caching and queue-based background jobs.

Full Stack Developer — Studio Underground

Jan 2025 – Nov 2025

- Built an **AI HR auto-calling & recruitment platform**: an AI voice agent (ElevenLabs + telephony API) auto-calls applicants, converses in natural voice, captures responses, and hands off to an HR executive — backed by a full HR dashboard for applicant and call management.
- Developed the **UG Inventory Management App**, a film-industry equipment tracker covering gear issue/return, check-in/out times, availability, and usage history.
- Owned backend architecture, third-party API integrations, and production deployment for both products.

WordPress Developer (Internship) — Xaca Technologies Pvt Ltd

Aug 2024 – Oct 2024

- Developed custom WordPress themes and plugins from scratch to client specifications.
- Customized WooCommerce stores and integrated third-party APIs and payment options.
- Delivered responsive, cross-browser, client-ready websites on schedule.

Freelance Full Stack & Android Developer — Self-employed

2022 – 2024

- Built **Food Tango**, a three-app food-delivery ecosystem — User app (browsing, ordering, real-time tracking), Delivery app (route optimization, status updates), and Restaurant app (menu & analytics) — backed by a Laravel REST API with secure payments.
- Published Android apps to Google Play: **Keeraya Junction** (truck-driver load posting/matching and trip management), **Thakur Saloon**, and **VictoriaBuzz**.
- Designed and delivered WordPress business websites including fliqaindia.com and victoriabuzz.com.
- Managed the full delivery cycle: client communication, requirements, development, deployment, and post-launch support.

KEY PROJECTS

- **HeyWapi** — live WhatsApp/Instagram marketing-automation SaaS (Node.js, MongoDB, Redis, React); multi-tenant subscriptions, visual chatbot flow builder, broadcast engine, website chat widget, and email via self-hosted Postfix.
- **Hyre** — full hiring platform: NestJS + Prisma + PostgreSQL API (38-table schema), Flutter candidate app, Next.js employer console and admin panel, SMS OTP auth, and weighted job-ranking algorithm.
- **TrafficMint** — reward/task mobile platform: Laravel 13 API (130 automated tests, paise-precise wallet ledger) with an Expo React Native app and AdMob monetization.
- **Vaani** — Hindi-first offline voice assistant for macOS: on-device speech-to-text and a local LLM (Ollama, llama3.2) running fully offline on 8 GB RAM — a privacy-first, zero-cost alternative to cloud dictation tools.
- **AgentCorp** — desktop app that assembles a virtual company of AI agents: a Boss agent decomposes goals and delegates to Worker agents that execute real tasks through n8n workflows, producing actual deliverable files.
- **Brain** — machine-learning research project: neural networks hand-written from scratch (no pretrained models), including a math-reasoning model trained on a 200M-token corpus using dual-GPU (2× T4) runs on Kaggle.

EDUCATION

Bachelor of Computer Applications (BCA) — Kurukshetra University

2019 – 2022
